

FINISHING MOWER

The Major Finishing Mower is perfect for large lawns, estates, parks, golf courses or municipal maintenance. Easily connected to the tractor's 3-point linkage this versatile machine is operating in minutes.

With safety prominent in all Major Machines, maintenance (lubrication, cutting

adjustment, belt adjustment, etc) points are all topside eliminating danger to the operator.

Located on each corner the 4 rubber castor wheels can be set precisely, prevent scalping, and are easily adjusted without the use of tools.

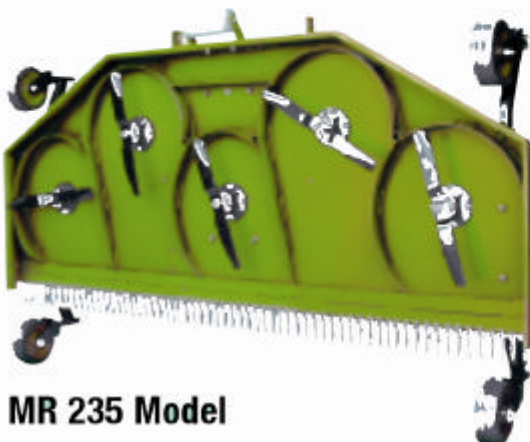

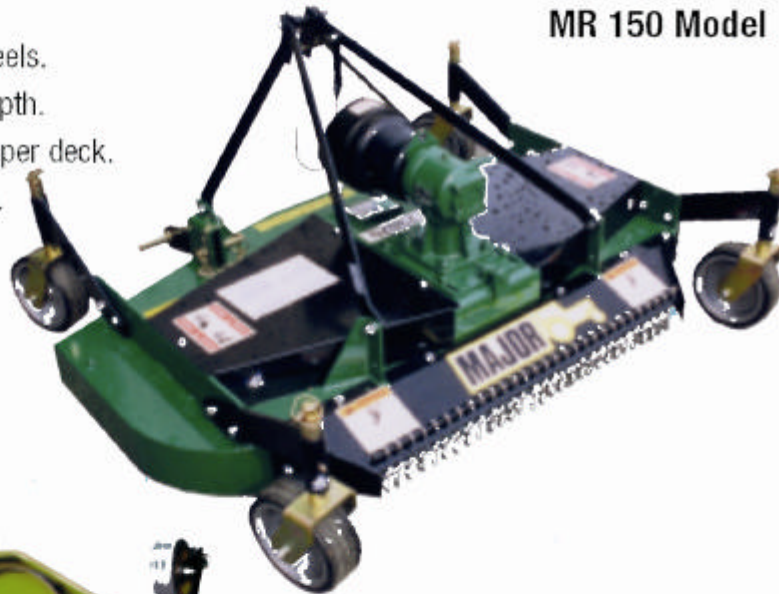

FINISHING MOWER

MODEL	Working Width (mm)	Power Requirements (Hp)		Weight (Kg)	PTO RPM	Blade tip speed m/min	Cutting Height (mm)	
		Min	Max				Min	Max
