

RANGE OF LOG SPLITTERS

The MAJOR Log Splitter range has three models available. All models are robustly constructed to withstand the punishment of continuous use. Safety is paramount at Major, with the operator required to use both hands to control the hydraulic ram.

MODEL	LS2000		
Paint	Two pack paint with hardener, oven baked		
Blade	Wedge blade of high carbon steel		
Operation	Category 1 tractor linkage		
Features	Single person operation		
Length	1950mm	Height	1120mm
Max Log Size	560mm	Pressure	14 tonne
Weight	126Kg		

MODEL	LS3000		
Paint	Two pack paint with hardener, oven baked		
Blade	Wedge blade of high carbon steel		
Operation	Category 1 tractor linkage		
Features	Single person operation		
Length	710mm	Height	1450mm
Max Log Size	380mm	Pressure	14 tonne
Weight	110Kg		

MODEL	LS4000		
PAINT	Two pack paint with hardener, oven baked		
Blade	Wedge blade of high carbon steel		
Operation	Single phase electric		
Features	Single person operation Adjustable frame & automatic adjustable stroke Wheel mounted for ease of movement		
Length	500mm	Height	1800mm
Max Log Size	630mm	Pressure	9 tonne
Weight	100Kg
