

# Dribble Bar

## Universal Tanker Mounted Dribble Bar

This unique patented Mastek Slurry Mate design allows the product to be retrofitted onto any slurry tanker without welding or fabricating. You simply remove the existing inspection plate and bolt on the universal dribble bar.

The Universal Dribble Bar can also be supplied with an attachment to be used with an umbilical system. It is available in a working width of 7.5m.

- ✓ Hydraulic folding mechanism
- ✓ Integrated macerator
- ✓ Spring loaded hinged arms
- ✓ Bolt on retro fit - no welding required
- ✓ Lightweight and durable construction

### Product specifications

Model	MJ90-750
Working Width	7.5m
Transport Width	2.5m
Wing pivot	105°
Height	3.45m
No. of outlets	28
Weight	425kg
