

# Swift Roller Mower

Winged, Three Point Linkage

The Swift winged roller mower delivers the all-important after-cut appearance with ease. The three-point linkage system allows close attachment to the tractor unit for easier towing and safer road transport. The combination of 60mm blade overlap with high blade tip speeds consistently delivers a professional, striped finish. The Swift range of roller mowers are engineered to deliver an impeccable cut in the best way possible.

All Swift roller mowers are built using Strenx™ 700 MC high performance steel and hot-dipped galvanised to EN ISO1461:2009 specifications. These standard features on Major products double machine lifespan and enable a high trade-in value.

The wings lock into a neat 1.9m transport width allowing for easy access through tight spaces. The LED road lighting kit ensures safe and high visibility movement between sites.

## Features

- ✓ Walterscheid PTO drive shafts fitted as standard
- ✓ Simple height adjustment from 10-130mm for versatile and year round mowing
- ✓ 60mm blade overlap for a pristine finish
- ✓ Sealed internal roller bearings for total protection against moisture, soil and debris
- ✓ Full-length rollers follow the ground contours and limits scalping
- ✓ 3-year MAJOR warranty

Internal roller bearings (on all MAJOR Swift and Synergy mowers)

Two in one blade system, rigid and swinging

10-130mm height adjustment for year round mowing

Model	MJ71-340	MJ71-400	MJ71-540
<b>Overall Width</b>	3.48m (11' 5")	4.16m (13' 8")	5.54m (18' 2")

<b>Mowing Rates (Acres/hr at 7mph)</b>	9.5	11.4	15.1

“

*We have used other mowers in the past, however the finish given by the MAJOR 5.4m Swift was far superior to any other machine. We can cover over 15 acres an hour. The quality of cut is excellent and it's a very reliable mower.*

Gordon McMurdo, Director, Albar Turf
